
AAA

Medical transport around the clock

The AAA Alpine Air Ambulance Ltd. is a Swiss air ambulance company. AAA is specialized in air and ground patient transport missions as well as organ transports organized through its own operations center. Since 2013 AAA successfully operates its own Ambulance Jet worldwide and has accumulated over 3000 flight hours on patient repatriation and organ transport missions. Next to the Ambulance Jet AAA operates its fleet of HEMS Helicopters as well as Ambulance Vehicles on national and international missions. The AAA teams are engaged worldwide 365 days a year under highest safety and quality standards.

The AAA portfolio

- National and international patient transport
- Ambulance flights for repatriation
- Rescue operations with helicopters
- Patient transfers with helicopters and ground ambulances
- Flights for transplant teams and organ transport for Swisstransplant
